Trinidad and Tobago COVID-19 (Novel Coronavirus) Update # 322

Port-of-Spain, July 8, 2020: As part of the national drive to safeguard the health of the Trinidad and Tobago population in the face of the global COVID-19 outbreak, the Ministry of Health continues to provide up-to-date information on the country's status in this regard. **Wednesday 8th July, 2020:**

Number of samples submitted to the Caribbean Public Health Agency (CARPHA) and UWI site for testing for COVID-19	5680
Number of unique patient tests completed	4244
Number of repeated tests	1436
Number of samples which have tested positive	133
Number of deaths	8
Number of persons discharged	117

COVID-19 Positive Patients in Hospital – (8) – Caura Hospital

COVID-19 Positive Patients in Step-down / Transition Facilities – (0)

Intensive Care Units (ICUs) are hospital wards that provide treatment for people who are very ill. They are staffed with health care professionals who are trained in ICU treatment and the use of sophisticated monitoring equipment.

High Dependency Units (HDUs) are wards for people who need more observation, treatment and nursing care than is possible in a general ward but slightly less than that given in an Intensive Care Unit.
