MEDIA RELEASE

July 26, 2020

Trinidad and Tobago COVID-19 (Novel Coronavirus) Update # 358

Port-of-Spain, July 26, 2020: As part of the national drive to safeguard the health of the Trinidad and Tobago population in the face of the global COVID-19 outbreak, the Ministry of Health continues to provide up-to-date information on the country's status in this regard.

The Ministry of Health reminds the population to source your information only from official sources, such as the Ministry of Health or Ministry of Communications.

As of the **morning of Sunday, 26th July, 2020** the Ministry reports the following:

Number of samples submitted to the Caribbean Public Health Agency (CARPHA) and UWI site for testing for COVID-19	6530
Number of unique patient tests completed	4996
Number of repeated tests	1534
Number of samples which have tested positive	147
Number of deaths	8
Number of persons discharged	128

COVID-19 Positive Patients in Hospital – (11) – Caura Hospital.

COVID-19 Positive Patients in Step-down / Transition Facilities – (0)

Intensive Care Units (ICUs) are hospital wards that provide treatment for people who are very ill. They are staffed with health care professionals who are trained in ICU treatment and the use of sophisticated monitoring equipment.

High Dependency Units (HDUs) are wards for people who need more observation, treatment and nursing care than is possible in a general ward but slightly less than that given in an Intensive Care Unit.

An Ambulatory Patient is able to walk about and is not bedridden.
